SELECTION CRITERIA FOR FUNDING

Your application will be considered based on our selection criteria for funding, which aims to provide funding to the neediest applicants. Funding will be allocated based on the following criteria:

- **EXTENT TO WHICH CHILD MAY BENEFIT FROM SERVICES**
- **HOUSEHOLD INCOME AND SIZE***
- **INSURANCE COVERAGE RELATIVE TO TREATMENT NEEDS**
- **NUMBER OF FAMILY MEMBERS WITH ASD/APSPERGER'S DIAGNOSIS**
- **CURRENT FAMILY SITUATION INCLUDING HARDSHIPS AS A RESULT OF THE DIAGNOSIS**
- **PARENTS ARE ACTIVE DUTY MILITARY**

Along with the application, you will be asked to submit the last 2 years tax returns to the Maximum Chances Foundation for verification.

Getting your child an autism diagnosis can be a lengthier and more difficult process than anticipated. Insurance companies usually have a strict criterion on who can and cannot give an autism diagnosis. If not given by an approved diagnostician, they will likely not approve funding for various therapies that your child will possibly benefit from need going forward.

Once you have found an approved diagnostician, the waiting lists can be extremely long, possibly up to a year's wait. The fact is the earlier you can get your child diagnosed and working with appropriate therapists, the better the potential outcome for your child and the whole family.

If you suspect your child needs an evaluation, ideally you would have a referral from a pediatrician or healthcare provider indicating they may not be meeting developmental milestones.

We currently provide funding for an autism diagnosis with Grapevine based Developmental Pediatrician, **Dr Charles (Mike) Rios**.

Dr Rios evaluation process for suspected Autism Spectrum Disorder is a four-appointment process. If Dr Rios does not feel like your child requires all four appointments as they may not meet all the criteria for suspected delays, he will discuss that with you early in the appointment process.

-The first appointment is a review of history and documentation, answering potential questions discussing an assessment plan.

-The second appointment will begin the diagnostic testing.

-The third appointment continues diagnostic testing if recommended.

-The fourth appointment will review the findings of the evaluation, provide a report and recommendations on moving forward.
